Notaras Tower

The Notaras Tower is a historic round tower built of dressed local stone, roughly 11 metres across with sturdy walls up to 2.8 metres thick. Though it bears the name of the well-known Notaras family, as a fortification it is older than their arrival: tradition holds that the Notaras found it already standing and put it back to use. Today it survives as an evocative ruin, a silent witness to the long history of the Sikyona countryside and the families who shaped it.
