Agios Dimitrios Church (Mikros Valtos)

In Mikros Valtos, a small mountain village of the Sikyona area lying at about 510 metres southwest of Kiato, stands the church of Agios Dimitrios. As the village's parish church it is the heart of the local community and a focal point for residents, especially on the saint's feast day on 26 October. A quiet stop here offers a glimpse of everyday life in the peaceful countryside of upland Corinthia.
